

## AISA ELEMENTARY AFTER-SCHOOL ACADEMY

Term 1 of the AISA After-school Academy 2019-20 is here! Please read the class descriptions for more information on the teacher-led activities. Activities will be 8 weeks long beginning Sunday, Sept. 15<sup>th</sup> – Nov. 7<sup>th</sup>. Your registration is completed after you fill in the form and receive a confirmation email.

Registration opens at 5pm, Monday, Sept. 9<sup>th</sup> <https://app.aisa.sch.ae/Login>

Registration closes at 3 p.m. on September 11<sup>th</sup>!

### French Writing for native speakers

#### Grade 2/3/4 (Parent-led Activity, limited to 10)

This program targets children from grade 2 to grade 4 who speak French at home. These students are able to confidently speak in French but, since their scholarship is in English language, they can't write in French. The purpose of this activity is to develop the writing ability through collaborative work and word games. **The prerequisite is to be fluent in spoken French language.**

**Sundays**, 3-4pm, Mrs. Steingassinger (French teacher)

**Location:** TBD

**Cost:** Free

### Kids Yoga (Max 12)

#### KG2

Relax and unwind after a tiring day at school.

**Mondays**, 3-4pm, Mrs. Varma

Ms. Daisy Dy-Liacco - [daisyartnook@gmail.com](mailto:daisyartnook@gmail.com)

### **Robotics Training from Carnegie Mellon Robotics Academy**

#### **Grade 4/5**

This is a curriculum module designed to teach core computer programming logic and reasoning skills using a robotics engineering context. It starts off with first level with a sequence of challenges organized around key robotics and programming concepts. It provides a structured sequence of programming activities in real-world project-based contexts. The projects are designed to get students thinking about the patterns and structure of not just robotics, but also programming and problem-solving more generally. Students learn to design, program and control fully-functional models and robots that carry out life-like automated tasks. This platform provides the ideal technology to teach Computer Science, Science, Technology, Engineering, and Mathematics.

**Sundays, 3-4pm**

**Location - TBD**

**Cost – 1050 AED (Inc. CMRA Level 1)**

**Shailesh - Cambridge Education [shailesh@cambridgeeducation.net](mailto:shailesh@cambridgeeducation.net)**

**<https://www.cambridgeeducation.net/robotics/>**

### **Cambridge Junior Robotics Program**

#### **Grade 1-3**

Training for young minds from the age of 5 – 8 will focus on introducing and enticing the students with the basic concept of Robotics and to make them realize how simple machines work. This age group is the most enthusiastic and curious learners, hence introducing robotics concept at such an early stage will help them grasp the concepts very easily, which will build a strong foundation for advance programs and their daily subject curriculum followed in schools. The objective will be to enable the students to build and program simple machines and also provide hands-on/ practical training in simple machine concepts.

**Wednesdays, 3-4pm**

**Location - TBD**

**Cost – 800 AED**

**Shailesh - Cambridge Education [shailesh@cambridgeeducation.net](mailto:shailesh@cambridgeeducation.net)**
